Something more, Our Guarantee

Phoenix Paver Manufacturing LLC is pleased to offer the following guarantee.

We guarantee our products against manufacturing defects for as long as you own your home.

Pavers must be installed according to *Concrete Masonry & Hardscapes Association installation guidelines, which importantly excludes the use of 1/4 minus base material.*

Phoenix Paver Manufacturing LLC limits their responsibility only to material of their production.

Material will be replaced on an one-for-one basis for each item deemed defective by PPM LLC, and will be drawn from products meeting current design standards at the time of replacement.

We can not guarantee exact match, but will make an effort to provide acceptable replacements.

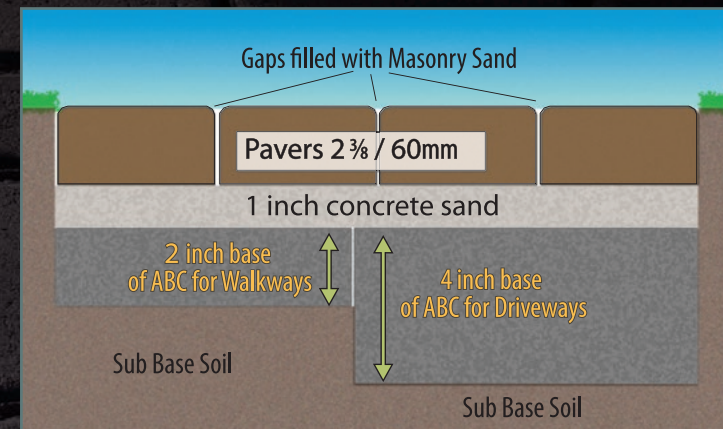

This guarantee applies only to non-commercial projects and does not include extraction or replacement labor cost.

Please contact us with any questions.

Pattern Ordering Ratios

Laying Ratios Standard Paver	6x9	6x6	3x6	4.5x6	9x9
2 pc Random	60%	40%			
3 pc Random	60%	30%	10%		
4 pc Random	55%	25%	10%		10%
5 pc Random	45%	25%	10%	10%	10%
Hopsotch		33%			67%
K-Pattern	75%	25%			

See the ordering chart on page at right.

Specify ABC material for the 2 or 4 inch base.

Use of 1/4 minus material will slump over time and can degrade the paver surface with efflorescence.

Paver Circle Kits

Paver Circle Shapes

Circle Kits: Territorial with Antique Split Pavers, and Standard Pavers in Native.

Circle Kit: Tierra Norte

Circle Kits provide gracefully curving elements and circles. These circles can be extended to wider diameters.

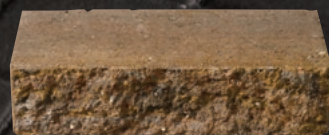

- 4' diameter = 15 sqft (*kit size*)
 - 6' diameter = 28 sqft
 - 8' diameter = 51 sqft
 - 10' diameter = 79 sqft
 - 12' diameter = 113 sqft
- $Area = 3.14 \times r^2$

Each circle requires one 4' diameter kit (covering 15 sqft.) The remainder is built with standard pavers.

all 2¾ thick

Sold as 3pc Combo

Aztec Stone is a three piece, large-format, modular system that adds rustic beauty to walkways, patios, and courtyards. Their natural stone texture lends an elegant and timeless feel to your projects.

Due to their larger format, we do not suggest this series for the added stress of vehicular travel areas.

Veneer pavers are often different shades from regular depth pavers of the same color blend do to differences in the manufacturing process. We advise *not* to use the two thickness types in the same project area.

Hotels and Apartments love our Veneer Pavers for fast installation with short "out of service" pool closings, and improved appearance of their courtyard areas.
